RE: Waiver to Allow Parents and Guardians to Pick Up Fresh Fruit and Vegetable Program (FFVP) Snacks for Children at Alternate Sites

1. State agency submitting waiver request and responsible State agency staff contact information:

Iowa Department of Education (Department), Bureau of Nutrition and Health Services

Kala Shipley, Bureau Chief, kala.shipley@iowa.gov, 515-281-4757

Stephanie Dross, Program Consultant, stephanie.dross@iowa.gov, 515-281-4760

2. Region: Midwest

3. Eligible service providers participating in waiver and affirmation that they are in good standing:

The Iowa Department of Education is requesting the waiver on behalf of any School Food Authority (SFA) approved to operate the Fresh Fruit and Vegetable Program (FFVP) during the 2021-2022 school year, who are deemed by the State Agency to be in good standing.

4. Description of the challenge the State agency is seeking to solve, the goal of the waiver to improve services under the program, and the expected outcomes if the waiver is granted. [Section 12(I)(2)(A)(iii) and 12(I)(2)(A)(iv) of the NSLA]:

In school year 2021-2022, Iowa schools have returned to 100% in-person learning. Schools may, however, be presented with situations where individual students may be learning virtually. As such, SFAs may have to implement strategies to provide non-congregate meals.

This may include considering the distribution of meals/snacks at centralized locations that are conveniently located across the community for improved family accessibility and a more streamlined process. With this alternative distribution method, the approved FFVP elementary school may not be one of the meal distribution locations. Grab and Go meals may be limited to a small number of school sites in the district or may be made available at non-school community locations.

Creating excellence in education through leadership and service

In order to provide a consistent distribution process for SFAs, Iowa is requesting a waiver of the requirement to distribute the FFVP snack only at approved FFVP elementary schools. Allowing for distribution of the FFVP snack at alternate SFA sites providing distribution of non-congregate meals, but not necessarily the FFVP elementary school, reduces the burden of parents having to stop at an additional location to pick up the FFVP snack. This would also reduce the administrative burden on the School Food Authority (SFA) to have additional staff at the FFVP elementary school location. This request will support SFAs in their efforts to provide continued access to nutritious FFVP snacks while maximizing student participation in their FFVP throughout the school year.

Without the waiver, children may lose access to the healthy FFVP snacks they have previously been provided and increase their risk of hunger.

5. Specific Program requirements to be waived (include statutory and regulatory citations). [Section 12(l)(2)(A)(i) of the NSLA]:

Section 19 of the NSLA [42 U.S.C. 1769a]

A school participating in the FFVP shall make free fresh fruits and vegetables available to students throughout the school day in one or more areas designated by the school (Section 19 of the NSLA), however the Iowa Department of Education is requesting a waiver to allow for the distribution of the FFVP snack at alternative site locations.

6. Detailed description of alternative procedures and anticipated impact on Program operations, including technology, State systems, and monitoring:

If approved, SFAs would be permitted to distribute FFVP snacks at alternate site locations providing distribution of meals and participants would be allowed the opportunity to receive fresh fruits and vegetables under FFVP without having to visit multiple meal sites.

7. Description of any steps the State has taken to address regulatory barriers at the State level. [Section 12(l)(2)(A)(ii) of the NSLA]:

Iowa does not have any State statutory or regulatory barriers that apply to this waiver request.

8. Anticipated challenges State or eligible service providers may face with the waiver implementation:

No challenges for State or sponsoring agencies are anticipated in implementation of this waiver.

Implementation of this waiver will decrease the challenges faced by sponsoring organizations and families who rely on nutritious snacks. Children who depend on FFVP snacks served at school will have an option to still receive nutritious snacks during the public health emergency.

9. Description of how the waiver will not increase the overall cost of the Program to the Federal Government. If there are anticipated increases, confirm that the costs will be paid from non-Federal funds. [Section 12(I)(1)(A)(iii) of the NSLA]:

The requested waiver does not impact the overall cost of the program to the State or Federal government. Only schools awarded FFVP funds would be eligible for this waiver.

10. Anticipated waiver implementation date and time period:

This waiver will be implemented immediately upon receiving approval with the first day of school and will continue through June 30, 2022 or the last day of the 2021-2022 school year, whichever is sooner.

11. Proposed monitoring and review procedures:

The State Agency will continue to carry out normal state agency monitoring using in-person and/or virtual reviews. Schools found to have noncompliance issues as related to this waiver will work with the State agency on an individualized corrective action plan.

12. Proposed reporting requirements (include type of data and due date(s) to FNS):

No later than December 31, 2022, the Department will report to FNS the following:

- Number of SFAs electing to use this waiver
- Number of schools that actually used the waiver during the program year
- Amount of funds spent on FFVP during the start of this waiver to the end of the school year

13. Link to or a copy of the public notice informing the public about the proposed waiver [Section 12(I)(1)(A)(ii) of the NSLA]:
